Results-driven **Software Developer with 2 years of experience** in developing and optimizing applications. Skilled in **communication, creativity, and technical problem-solving**, with a proven track record of delivering efficient solutions. I am a **self-motivated and optimistic professional**, focused on continuous learning, growth, and strengthening leadership and teamwork abilities.

PROFESSIONAL EXPERIENCE

ProcessDrive

As a core Full-Stack Flutter Developer, I lead end-to-end application development from UI to backend integration.

Feb 2024 – Present

Hosur, India

KEY FEATURES AND MODULES

- **Push Notification Integration**
Integrated Firebase push notifications to deliver real-time updates and alerts.
- **WhatsApp Cloud Integration**
Implemented WhatsApp integration using WhatsApp Cloud, with support for customizable and reusable message templates.
- **Invoice Management Module**
Designed and developed a complete Invoice module, covering generation, validation, and lifecycle management.
- **Couponing & Discount System**
Built a flexible Couponing system to handle discounts, offers, and promotional rules.
- **Transfer Order Management**
Developed a Transfer Order module to manage and track item movements between locations.
- **Automation & Quality Assurance**
Automated major application modules using **Patrol testing**, ensuring stability, reliability, and regression coverage across key workflows.
